

MARUTI DRIVING SCHOOL

Today's driving requires a higher level of confidence and competence to encounter bad roads, poor traffic planning, untrained drivers and fast increase in number of vehicles. The question is how to gear up for that?

- 1st time in India
- Customised software for Indian roads
- Simulates all weather & road conditions
- Instills confidence before going on road
- Feel of real vehicles
- Feedback at every step

Advanced vehicle simulators

PREPARE YOURSELF...

A specialised trainer can be of much help. Like Maruti Driving School (MDS) - established with the goal to provide the best motor driving training in the country.

DEDICATED TO SAFETY...

Backed by India's no.1 car manufacturer - Maruti Suzuki, MDS imparts not just better driving skills, but also better awareness towards overall road safety. So you become a smart and responsible motorist well-equipped to follow safe driving habits.

THE RIGHT TURN...

A lack of professionalism in driving, lack of a positive driving culture and untrained drivers are responsible for a majority of accidents. The training programs at MDS ensure overall

Comfortable learning experience

driving efficiency of the learners. The advanced training, highly experienced instructors, state-of-the-art facilities and well-maintained cars further help the drivers in learning optimum driving skills.

A fleet of well-maintained training vehicles

MDS is definitely the right way to move towards a safer future.

MAKES YOU FULLY-EQUIPPED...

MDS ensures that new drivers are fully confident and prepared. For this, following practices are also integrated in the course:

Confidence before you drive

Hazard perception

The learners are trained to guess unexpected on-road situations and react according to that.

Case study methodology

With this, the trainees learn from other people's driving errors, so they can respond to situations in the most appropriate manner.

One to one focus

The track record of each trainee helps in monitoring individual progress. This also helps them improve upon their weak areas.

Training on multiple routes

This acts as a confidence builder for the trainees as they learn to encounter varying close-to-life situations on different routes.

Pre-defined route patterns

The specially conceptualised route patterns aid stage-wise learning of specific skills like moving into a tight space, reverse out, corner and manoeuvre easily.

Behavioral training

The detailed analysis of past accidents makes the trainees aware of the correct measure which should be taken to escape such a situation.

Classroom training

The training modules cover a wide range of topics to help the learners follow good driving skills and stay in control. The topics include:

Effective classroom training

- Attitude & behaviour
- Traffic education
- Maintenance & fuel efficiency
- Defensive driving skills
- Emergency handling techniques

Highly experienced trainers

MDS BENEFITS...

- International Quality Training: Driving skills at par with world standards
- Professional and Trained Faculty: Expert guidance at every step
- Realistic Simulators: Confidence even before getting on road
- Fleet of AC cars: Comfortable learning experience
